

# Announcements for Monday, February 19, Math 1553

- The **1.9 Webwork** is due **Thursday, Feb. 22, at 11:59 PM**.
- This week's quiz covers all of the material on linear transformations (1.8, 1.9, and one-to-one and onto).
- Please see the announcement on Canvas regarding midsemester grade reports. If you find yourself struggling so far, I'd suggest you seize all opportunities to come to office hours and utilize **other resources**. **Most students find that Math 1553 gets progressively harder as the semester goes on.**
- *Check the gradebook for Piazza polls.* A few students have reported having trouble with poll responses in the Piazza phone app. If you see a 0 in the gradebook for a poll you remember submitting, I'd suggest using a laptop from now on.
