

Announcements for Monday, April 23, Math 1553

- Final exam: **Tuesday, May 1, from 6:00-8:50 PM.**

Exam location for Lecture A: Boggs B5

Exam location for Lecture C: Howey L3

The full list of final exam times and locations for the School of Math is available [here](#).

- There are Webworks for 6.4 and 6.5, and I strongly encourage you to do them to study for the final, but **6.4 and 6.5 will not be graded under any circumstances (not even for extra credit).**
- **The final exam is cumulative.** It will cover everything we've done this semester, including section 6.5.
- See our course calendar for a sample final. The usual disclaimer applies. Solutions will be posted Wednesday after the Reading Day session, which will focus on the sample final.

- **Office hours this week:**

Tuesday 1:00 - 2:30 PM and Thursday 10:00 AM - 12:00 PM.

Thursday's office hours will be my final office hours of the semester.

- Please check Canvas to make sure that all of your homework, poll, quiz, and exam grades have been entered properly. This is especially relevant if you took makeup quizzes or if you made up a quiz by having the next quiz count double.

The Canvas gradebook (aside of the final exam grades of course) will become final on Monday, April 23, at 5:00 PM, so it is very important that you check to make sure it is correct. At 5 PM on Monday April 23, every blank grade entry on Canvas will become 0.
