

Announcements for Wednesday, Jan. 23, Math 1553

- The quiz this Friday (Jan. 25) covers sections 2.2 and 2.3.
Quizzes are at the beginning of recitation, so don't be late!
- **Two** homework assignments are due this week: the Webworks for 2.2 and 2.3 are due Thurs. (Jan. 24) at 11:59 PM.
- Later this week, I will post some notes online for next week. The depth of the course picks up soon, so I strongly suggest you take a look at those notes before class next week.
- Please check Canvas to be sure you received a 1 if you voted in our first official Piazza poll last week. Occasionally, there is a problem with the phone app or a student forgets to submit a response after they have selected it. If you have any doubt about your poll being counted, come to me before or after a lecture so that I can verify your attendance.
